

How to Embroider With Mylar

- I. Hoop your fabric and stabilizer.
2. Lay your Mylar on the top the fabric and sew out color sequence
3. Trim your Mylar back, to remove the excess, just tear it gently back from the design. If there are tiny remnants left, you can remove those with tweezers.
4. Return hoop to the embroidery machine and continue with the design.
5. You will have a design with Mylar that will give it extra sparkle and shine throughout.
