

Directions for fringe flowers

Example:

Refer to the thread list pdf (included with the design set) for which part of the design is fringe. The fringe flowers are circled in red. Refer to the example on the left.

1. Stitch out the desired design on your project.

2. After the stitching is finished, leave in hoop for easier clipping of bobbin threads.

3. Turn the hoop over, and carefully snip the bobbin thread of the fringe flowers.

4. Turn the hoop back over. Carefully pull the threads of the fringe flower back through the material and fluff out.

Enjoy!!
