

# Blue Christmas Design Instructions

The designs in this set are all One Color. Stitch all color stops in the color you want for the design. I used mylar when stitching, but the designs can be stitched without mylar. If not using mylar you do not need to stitch color stop 1 and color stop 3.

1. Thread your machine with the color of thread you wish for the design. Stitch color 1.  
This is the placement for the mylar.  
Place the mylar over the stitches
2. Stitch color 2. This will secure the mylar.
3. This stops the machine. Do not change the thread. Pull the extra mylar away from the stitched areas.
4. This will stitch the rest of the design.
